Conventions in Münster

Successful since 1648

Welcome to the City of Science and Savoir Vivre!

Bernadette Spinnen
Director of Münster Marketing

Are you thinking about organising a convention or a conference? How splendid – Münster is at your service: we love conferences! Not just because of the historical tradition of our city, where a peace conference did after all end the Thirty Years' War. Münster today, as a city of science and savoir vivre, still offers a wonderful setting for your event.

The city. The Hanseatic city with a great history, the scientific city with a young pulse, the modern service provision city with 300,000 inhabitants – a location with charisma, for being heard and seen, nationally and internationally. But at the same time it is not so big that your convention will be drowned out in the background noise of a metropolis, but can instead be clearly perceived as an event.

The network. What use are the potentials and advantages of a city when you have to painstakingly seek out everything you need for your plans? This is why all Münster's stakeholders – from the universities to the council and hotel industry to the service providers – have formed a strong network: the KONGRESSINITIATIVE MS. In this guide, we present to you this wide and varied range of services in a bundled form.

The service. All the threads of this well-practised network converge for you at one point – at the Conference Office of Münster Marketing. Here you can call upon concentrated conference planning expertise. Quite simple and uncomplicated: from the useful fast information to the tailor-made complete package – with all bonus points. After all, you have got enough to do to make sure that your convention is a success as regards its content. We will take care of the rest – if you want us to. And you can keep your head free for what is most important. Is that an offer? We look forward to your call!

Yours sincerely,

Conference City Münster

„Everybody wants to go to Münster“ recently was the cover headline of a major German daily newspaper. That is a slight exaggeration. But it is a fact that Münster is among the major German cities for which the best prospects of growth continue to be forecast. A young city of education and science, a prospering business location – with a rich history, lively culture, beautiful cityscape and lots of green: splendid conditions for your convention, your guests will feel completely contented.

CONFERENCES AND CONVENTIONS IN MÜNSTER

Good News! The Little Ice Age is Over!

Actually, everything went excellently. 150 high-ranking delegations from all over Europe, hospitality in distinguished accommodations, an expectant public – optimal conditions for productive negotiations. Only there was the rain. And the brown bread. Fabio Chigi had his problems with those. And the papal envoy complained about these at the Westphalian Peace Conference in his poems.

Tempi passati

All of that was in the period from 1644 to 1648. The Roman legate's two points of complaint can now be considered rectified. The amount of rain was due to the Little Ice Age – in Münster this is now substantially under the German average. And the brown bread – or Schwarzbrot – is no longer by any means the only signature feature of Münster's exquisite cuisine (although the traditional "Pumpernickel" has a firm fan base all over the world).

What has remained

Münster as a location with Europe-wide pull. One can still have successful meetings here, as in the past. And nowadays, even

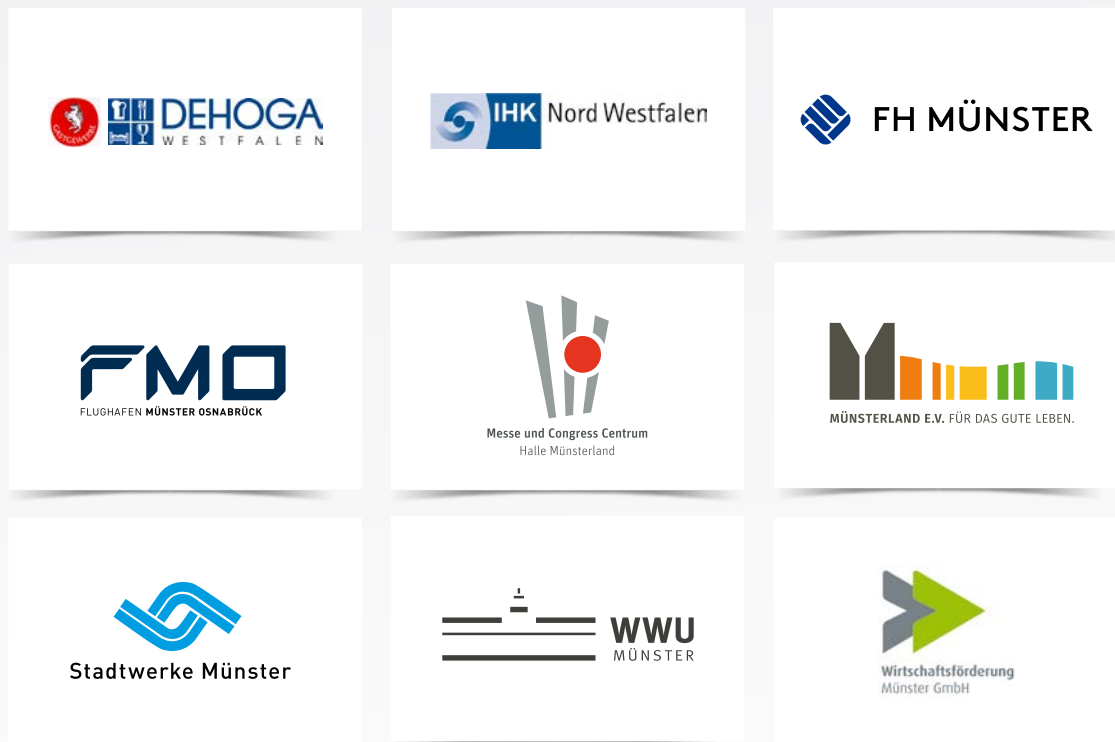

Italians spoiled by sun and saltimbocca can feel at home in Münster. Whether national or international, whether it be an exclusive expert circle or media-effective large-scale event with up to 4,000 participants – even if you do not quite have a Thirty Years' War to end, Münster offers the best opportunities for every kind of convention, seminar and conference. As a university and Hanseatic city, as a city of the Peace of Westphalia and as one of member cities of the Historic Highlights of Germany, Münster is among the most beautiful and tradition-rich conference sites in Germany.

The stage is ready for you

More than 70 hotels with more than 4,500 beds, a rich selection of smaller or larger, but also very unusual venues, a perfect and made-to-measure conference service – that is all embedded in the life and culture of a modern major city, with more than 300,000 inhabitants, a city of science and savoir vivre that will also enchant your meeting attendees beyond the official programme. Welcome!

KONGRESSINITIATIVE^{MS}

A PROJECT OF MÜNSTER MARKETING

KONGRESSINITIATIVE^{MS}

A Strong Network

This fits in with the traditions of the convention city of Münster: in order to guarantee their guest the most comfortable and successful events possible, all of those involved have joined together to form the KONGRESSINITIATIVE^{MS}, a strong network in which all important areas work together actively: service provision, business, science, local authorities, hotels and catering.

Successful together

The short channels within the network allow fast access to information – and for you as guests, direct line to the right contact persons, arranged via the Conference Office. Our networks' work is focused upon optimising services and opening up new markets. Particular attention is paid to the intensive cooperation with all nine colleges and universities in the city, the researchers and teaching staff of which are frequently among the initiators and organisers of conferences.

The KONGRESSINITIATIVE^{MS} is a member in the following associations:

- **German Convention Bureau:** The German Convention Bureau is the central contact for all customers planning events in Germany.
- **„Business“ Competence Network:** This is one of the five thematic networks set up by Tourismus NRW e.V. for the implementation of the North-Rhine Westphalia tourism master plan.

HAVE A GREEN CONFERENCE IN MÜNSTER

Healthy, Sensible, and Sustainable

The awards as „Most Liveable City“, as a „Bicycle city“ or as a „Climate Capital“ prove that a healthy, aware, and sustainable lifestyle is not just one of Münster’s guiding principles on paper, but can also be experienced in everyday city life. As our guest, we would also like you to benefit from the advantages and experiences of our “Green City”.

Keeping conferences green is a major priority in Münster!

Is it important to you that you organise your convention as sustainably as possible? Would you like to optimise your conference processes as regards the aspects of e.g. climate protection or saving resources? The Conference Office will be happy to assist you in your planning with bundled know-how – in a very uncomplicated way. The Conference Office is committed in different ways, in cooperation with the Office for Green Spaces and Environmental Protection. We keep ready a wide and varied range of suggestions as to how you can arrange your event to be climate-friendly – ranging from questions of mobility to resource consumption and green IT to projects of compensatory climate protection.

Climate-friendly events

One important key indicator is the CO₂ emission of a convention. A convention is climate-friendly if the calculated CO₂ emission is substantially reduced, e.g. by using the „Welcome! Ticket Münster“ or the use of recycling paper with the „Blue Angel“. The journey to and from the location is also an important factor of course. This is a matter of persuading your convention attendees to do without arriving and leaving by car or aeroplane (guests that arrive by aeroplane can compensate for the CO₂ emission with most airlines). One of the convincing solutions for this is e.g. the event ticket of Deutsche Bahn.

Events are also climate-neutral, or CO₂-“neutral“, if the CO₂ emission is kept neutral and completely compensated for by a climate-protection project. The aim is to keep down the CO₂ emissions caused by an event and thus cause as little environmental pollution as possible.

Münster's Seals of Quality and Certificates

Various environmental and sustainability certificates make it possible for companies, event organisers, and consumers to deal with natural resources in a good, environmentally friendly way, and take Corporate Social Responsibility into account. We have listed a selection of certificates with which our sponsors and partners of the Kongressinitiative^{MS} cooperate.

You will find an overview of **all service providers offering 'green services'** in the chapter 'At a Glance'.

SCIENCE OFFICE MÜNSTER MARKETING

Hub for the Science City

In Münster, science, business, and the municipality all pull together. With the „Alliance for Science“, a strategic network with representatives from business, science, and the municipality, expertise is brought together and capabilities bundled in order to enhance Münster's profile as a city of science and savoir vivre.

The Science Office forms the hub between the nine universities and colleges and the municipality. It organises the linking of the institutes, teaching staff, and the students with the citizens in Münster. Direct synergy effects arise for organisers of conventions and conferences, which in Münster come to a substantial extent from the field of science. Next door to each other, the Conference and Science Office ensure the important networking in an uncomplicated and direct way.

UNIVERSITY OF APPLIED SCIENCES, MÜNSTER

Your Capable Host

With its various locations, Münster University of Applied Sciences is an ideal place for further education, seminars or congresses. Private parties also find the perfect setting here.

Leonardo Campus Buildings No. 10 and No. 6

The Leonardo Campus offers a charming blend of the historic and the modern: red brick buildings of the Prussian cavalry barracks (Leo 10) and simple, elegant architecture in the spirit of the 21st century (Leo 6). Meetings with a special flair.

Hüfferstiftung

The time-honoured building with the red brick facade is the “face” of Münster University of Applied Sciences. It is centrally located to the castle, the city

centre and the Aasee. Another campus building with variable rooms is currently being built on the grounds of the Hüfferstiftung.

University of Applied Sciences Centre
 The Fachhochschul-Zentrum (FHZ) was built in 1974 and is a typical representative of the architecture of that time. It has recently been thoroughly modernised. Due to its size, the FHZ offers the most extensive range of rooms.

Steinfurt Campus

With its closely spaced buildings, the campus in Burgsteinfurt is comparable to the facilities of American universities. The new lecture hall building, completed in 2013, is particularly flexible thanks to its mobile walls.

FACTORY HOTEL MÜNSTER

Listed and Modern

Industrial elements and homely comfort, close to the city centre and in a peaceful location – the Factory Hotel unites opposites in a unique concept. The listed main building of the former Germania brewery and a lake form the heart of the district, which is equally a meeting place for hotel guests and for the people of Münster, with restaurants, clubs and much more.

In the Factory Hotel, every kind of event becomes a success. A total of nine rooms are available for conferences, conventions, family celebrations, weddings, and other events. Two restaurants ensure that connoisseurs get their money's worth.

The hotel restaurant EAT is open to hotel guests and outside guests from early in the morning until late in the evening and

serves fine variants of international cuisine. Spanish tapas and Mediterranean dishes are served in La Tapia. Finish off the day or get in the mood for the evening, meet old friends or get to know new people. Or: simply take your time and enjoy your drink – the bar and lounge TIDE is the ideal place for this.

Equipment & special features:

- Telephone, flat-screen TV, free internet connection, safe,
- Full-length and make-up mirror, hair-drier and amenities,
- All rooms are non-smoking and suitable for people with allergies and have balconies

ROMANTIK HOTEL HOF ZUR LINDE

Meetings in the countryside along the river Werse

The success of a conference depends not least on whether the participants feel comfortable and cared for.

As an alternative to the typical conference hotels, we offer very individual rooms with a feel-good character. The course of the river Werse is also often used as a conference venue, where a conference or meeting often takes on a whole new dynamic in the open air. Naturally, catering also plays a special role here: lunch and dinner are offered

as menus and served at the table in one of our cosy restaurant rooms or, in summer, on the terrace.

We are also happy to organise special activities in our park: raft building, archery, curling, canoeing or a bicycle tour to the city centre of Münster, which is only 20 minutes away.

LANDHAUS EGGERT

In a Fantastic Location before the Gates of Münster

In the most beautiful surroundings amid green countryside, only 20 minutes by car away from the city centre, the Eggert family has been running the now 4-star superior hotel for five generations. The helpful and professional service is widely known in Münsterland.

This very special hotel, with its lovely English-Westphalian architecture already radiates a special charm at the first glance and its interior fulfils the highest quality standards.

In addition to the unique ambience, special emphasis is also placed upon the cuisine of this country house: delicious dishes are served in the historical fireplace room, in the elegant country house restaurant, and on the gorgeous terrace. A small but excellent wellness area rounds off the harmonious range of features.

Extraordinary Locations

How about a meeting in the elephant house of the Allwetterzoo Münster? Or in the Pferdemuseum (horse museum) there? Have you ever had a meeting in a former British garrison church? A medieval Westphalian estate is another alternative, of course. Or a cool club in an old factory hall? And that is by no means all of the ideas and suggestion. Find out for yourself, we will be happy to advise you!

HISTORICAL TOWN HALL

Münster's Landmark in the Heart of the City

The Historical Rathaus (Town Hall) at Prinzipalmarkt is from the middle of the 14th century and, with its high gable, has no equal in Germany. History has been written here. In 1648, the Spanish-Dutch Peace Treaty – part of the Peace of Westphalia – was confirmed in the Peace Hall. After being largely destroyed in the Second World War, the characteristic gabled building with its arches, was faithfully reconstructed in the 1950's, financed above all by the donations in kind and money of merchants and citi-

zens and through the town hall lotteries. The Rathaus (Town Hall) and the adjacent Stadtweinhaus (City Wine House) are now used for cultural and prestigious occasions and for official receptions. The meetings of the political councils also take place here. The largest room in the Town Hall – the ballroom – and the adjacent armoury can be provided with various types of seating. Furthermore, small meeting rooms are to be found in the Stadtweinhaus. These rooms have fixed block-formation seating.

VINOTHEK AM THEATER

Seasonal, Regional Cuisine from Münster – Wines from Europe

Here, you can choose between 30 open and about 150 different bottled wines from our winemakers in Germany, France, Austria, Spain, Portugal and Italy. We purchase all wines directly (even those from overseas). For those with a great thirst, we have beer straight from the barrel – brewed locally of course! Our kitchen uses predominantly domestic products and these are cooked fresh. Meat comes from smaller breeding operations that we know and the vegetables come from near-nature cultivation. Regional prod-

ucts become new pleasurable experiences through our creative cooking ideas.

We can organise for you:

- Wedding celebrations
- Champagne receptions
- Wine tastings
- Company dinners
- Catering

Wine can be purchased from us for your own private consumption. We will deliver this to your door, anywhere in Germany.

Accompanying Programmes

Sometimes it takes a good frame to really bring out the content of a picture. Even conventions need more than an atmosphere that is focussed exclusively upon work. Relaxing, stimulating, or exciting, culinary, historically informative, steeped in culture, or sportingly active – we can offer you a colourful range of suggestions for a suitable programme to accompany your conference.
